Mr. Bob Erickson, Acting Chief
Material Control & Accountability Licensing Branch
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

As discussed earlier today with members of your staff, the need has arisen to extend the time allowed for completion of a 741 document with measured values on one lot of UO₂ powder from 30 days as specified in license condition 6.2 of MPP-2 to 45 days. This additional time will allow for determining receiver values on tare weight subsequent to container emptying.

We will be mailing a confirmation copy of this letter with the associated \$150 administration amendment fee attached.

Thank you for your prompt attention to this matter.

Sincerely,

BABCOCK & WILCOX COMPANY
COMMERCIAL NUCLEAR FUEL PLANT
