Rec'd 5-1-81

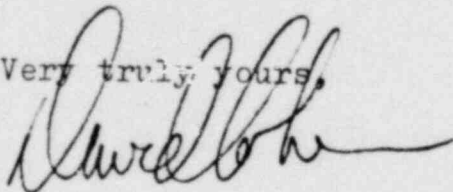

Dear Mr. Houston:

I am investigating an accident which occurred on March 12, 1979 at the construction site of the Forked River Nuclear Power Plant, in Forked River, New Jersey. The plant has never been completed, I believe.

Please advise how I may obtain copies of the Preliminary Safety Analysis Report as well as the Drawings and Specifications. These documents are available, I understand, under the Freedom of Information Act.

Thank you for your cooperation in this matter.

Very truly yours,

David Cohen
