Gentlemen:

Subject: Inspection 50-333/81-06

This refers to the routine, safety inspection conducted by Mr. J. Linville of this office on February 1-28, 1981 of activities authorized by NRC License No. DPR-59 and to the discussions of our findings held by Mr. Linville with yourself and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the Office of Inspection and Enforcement Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Our inspector also verified the steps you have taken to correct certain items of noncompliance brought to your attention in letters dated March 11, 1980, May 16, 1980, October 1, 1980 and December 31, 1980. We have no further questions regarding the steps you took to correct items A & B of the March 11, 1980 letter, A of the May 16, 1980 letter, B & C of the October 1, 1980 letter, and item A of the December 31, 1980 letter.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. These items of noncompliance have been categorized into the levels described in the Federal Register Notice (45 FR 66754) dated October 7, 1980. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.
