Docket No. 50-358

Cincinnati Gas and Electric  
Company  
ATTN: Mr. Earl A. Borgmann  
Senior Vice President  
Engineering Services and  
Electric Production  
139 East 4th Street  
Cincinnati, OH 45201

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. F. T. Daniels and T. P. Gwynn of this office on March 2-6, 9-14, 16-20 and 23-27, 1981, of activities at Wm. H. Zimmer Nuclear Power Station authorized by NRC Construction Permit No. CPPR-88 and to the discussion of our findings with Mr. J. R. Schott at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in enclosed Appendix A. A written response, submitted under oath or affirmation, is required.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room, except as follows. If the enclosures contain information that you or your contractors believe to be proprietary, you must apply in writing to this office, within twenty-five days of the date of this letter, to withhold such information from public disclosure. The application must include a full statement of the reasons for which the information is considered proprietary, and should be prepared so that proprietary information identified in the application is contained in an enclosure to the application.
