Gentlemen:

Subject: Report Nos. 50-327/81-14 and 50-328/81-14

This refers to the special inspection conducted by W. H. Miller, Jr. of this office on March 24-27, 1981, of activities authorized by NRC Operating License No. DPR-77 and Construction Permit No. CPPR-73 for the Sequoyah facility. Our preliminary findings were discussed with J. M. Ballentine at the conclusion of the inspection.

Areas examined during this inspection included fire protection/prevention. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no violations were disclosed.

During the inspection it was found that certain activities under your license appear to deviate from commitments to the Commission and have safety significance. This item is identified in the Notice of Deviation enclosed herewith as Appendix A. Please provide us in writing your comments including a description of corrective actions that have been or will be taken, corrective actions which will be taken to avoid further deviations, and the date your corrective actions will be completed.

We have examined actions you have taken with regard to previously identified enforcement matters and unresolved items. The status of these items is discussed in the enclosed report.

Four new unresolved items are identified in the enclosed inspection report. These items will be examined during subsequent inspections.

In accordance with Section 2.790 of the NRC "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include the basis
