Mr. M. S. Pollock
Vice President Nuclear
Long Island Lighting Company
175 East Old Country Road
Hicksville, New York 11801

Dear Mr. Pollock:

SUBJECT: IMPLEMENTATION OF SHOREHAM GUARD TRAINING PLAN

As a result of a recent meeting with members of your staff to discuss the revised guard training plan, we have reviewed the provisions of 10 CFR 73.55 as regards implementation of and compliance with training and qualification plans to meet requirements of §73.55(b)(4).

The portions of the general paragraph of 10 CFR 73.55 relevant to implementation and compliance read:

".... Each applicant for a license to operate a nuclear power reactor pursuant to Part 50 of this chapter whose application was submitted prior to February 24, 1977, shall submit by May 25, 1977, an amended physical security plan describing how the applicant plans to comply with the requirements of this section including schedules of implementation. If such applicant receives an operating license after February 24, 1977, he shall comply with the requirements of paragraphs (b), (d), (f), (g), and (h) of this section, ... by May 25, 1977, or on the date of receipt of the operating license, whichever is later and implement his plan and comply with all of the requirements of this section by February 23, 1979 or on the date of receipt of the operating license whichever is later."

It is our conclusion that the Guard Training and Qualification Plan required under §73.55(b)(4), for the Shoreham Nuclear Power Station shall be implemented so as to provide for qualified guards as of the date of receipt of the operating license.

The implementation dates contained in section §73.55(b)(4) were intended to apply only to operating reactors, not to applicants with sufficient lead time available to them to commence operations with trained and qualified guard forces.

Sincerely,
