RE: Cultural Resource Survey of Moore Ranch Mine/Sand Rock Mill Area - NRC
Docket No. 40-8743

Dear Mr. Eckles:

Enclosed you'll find four copies of a contract to perform a 100% cultural resource survey for this project area. Please sign and return three of the contracts; keep one copy for your records.

I understand that work on this task will begin during the week of May 25, 1981. As an aid to your field work, I have enclosed 5 copies of a 1" = 500 ft., 5 ft. contour base map for the proposed project area. Also enclosed you'll find a copy of Results of Archeological and Paleontological Surveys for the Sand Rock Mill Project, dated July, 1980. This report was the basis for the Wyoming SHPO cultural clearance in Section 1 in the southeastern portion of the proposed permit area. Perhaps some regional material in this report will be useful to your study of the adjacent area.

If you have any questions regarding these materials, please contact me.

Sincerely,

Terence W. Quigley
