Reference: Letter to Jim Fairobent from William Thalke dated May 19, 1981.

Dear Mr. Fairobent:

Enclosed is a map of the proposed tower locations at Cooper Nuclear Station showing the distances to surrounding objects that could have effects on local wind patterns. Will you please review these locations as they relate to regulations concerning meteorological sites at nuclear stations.

I will contact you the week of June 15 to further discuss these locations.

Sincerely,

William L. Thalke  
Environmental Specialist
