This is a follow-up of my March 24, 1981 letter to you (copy attached) requesting information on the Northern Michigan and Wolverine Electric Cooperatives. Although this matter is not of great urgency, we do want to assure ourselves that it has not slipped through a crack.

Dear Mr. Tauber:

ENRICO FERMI ATOMIC POWER PLANT, UNIT NO. 2

In connection with our analysis of any significant antitrust changes since the construction permit antitrust review of the captioned nuclear plant, could you please provide us with answers to questions l.e, f and h of Regulatory Guide 9.3 (copy enclosed) for the Northern Michigan and Wolverine Electric Cooperatives? Also, Mr. Hamann's March 17, 1975 submittal to Mr. Braitman referred to a consultant's power supply study for the City of Wyandotte that was in process. Could you advise us of any further contacts with the Detroit Edison Company in connection with or resulting from that study?

Sincerely,

S/
