Re: Docket No. 50-133
License No. DPR-7

Dear Mr. Engelken:

This letter is in response to IE Bulletin 81-02. The subject bulletin requested each plant to ascertain whether any Westinghouse-EMD 3-inch or 4-inch valves or Borg-Warner-NVD 3-inch 1500-pound motor operated gate valves have been installed, or are maintained as spares. None of the subject valves are installed in safety-related systems or maintained as spares at Humboldt Bay Power Plant Unit No. 3.
