License No. R-101

Mr. James A. Miller, Chief
Standardization and Special Project Branch
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Miller:

We hereby request the following changes of the Safety Analysis Report for the University of California Berkeley Research Reactor, February 1964 lines 21, 22 and 23 on pages 6-8 and line 1 of pages 6-9 from:

All personnel working around the reactor will be part of the medical program which is administrated by Environmental Health and Safety. This program calls for bi-annual physical examinations and alternate bi-annual clinical laboratory tests.

to:

All personnel working around the reactor will be part of the medical program which is administrated by Environmental Health and Safety. This program calls

All full time operators, full time senior operators, including the Chief Reactor Operator and Reactor Supervisor, and the full time Reactor Health Physicist, working around the reactor will have a physical examination every 24 months but at intervals not to exceed 28 months.

These changes were reviewed by the Reactor Hazards Committee, Environmental Health and Safety and the Reactor Staff.

This change does not constitute an unreviewed safety question in that:

- (1) It does not increase the probability of occurrence of an accident analyzed in the Safety Analysis Report
- (2) It does not increase the consequences of an accident analyzed in the Safety Analysis Report
