Docket No.: 50-382

Mr. D. L. Aswell
Vice President, Power Production
Louisiana Power & Light Company
142 Delaronde Street
New Orleans, Louisiana 70174

Dear Mr. Aswell:

At a meeting held in Bethesda on May 28, 1981 the status of the Waterford SER was discussed with your staff. The status as of that date was that of the 94 issues identified in my letters of May 15 and 21, 1981, 50 remained open and 16 were resolved subject to confirmatory analyses or information.

As a result of that meeting, we agreed that it was necessary to delay issuance of the Waterford SER until July 6. This date was selected based on a commitment made by your staff to provide adequate information to closeout 28 of the 50 open issues. I have enclosed a list of these issues and your proposed submittal dates. Your staff also committed to make every effort to address additional open items in this time frame.

I want to reiterate that any delay in your response will likely result in a corresponding delay in the SER date.

Your cooperation is appreciated.

Sincerely,

Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
