Docket No. 50-358

Cincinnati Gas and Electric
Company
ATTN: Mr. Earl A. Borgmann
Senior Vice President
Engineering Services and
Electric Production
139 East 4th Street
Cincinnati, OH 45201

Gentlemen:

Thank you for your letter dated June 19, 1981, informing us of the steps you have taken to correct the noncompliance which we brought to your attention in Inspection Report No. 50-358/81-08 forwarded by our letter dated May 29, 1981. We will examine these matters during a subsequent inspection.

Regarding Attachment A in your response, we note that it is inconsistent with the listing of preoperational tests identified in your FSAR. The applicability of 10 CFR 50, Appendix A, covers all the preoperational tests identified in the FSAR. Therefore, the scope of our reviews will not be limited to the tests listed in your Attachment A, but may include those listed in your FSAR. However, if you wish to re-evaluate and amend the list of preoperational tests contained in the FSAR, you should submit the new program to the Office of Nuclear Reactor Regulation.

Your cooperation with us is appreciated.

Sincerely,

C. E. Norelius, Acting Director
Division of Engineering and
Technical Inspection
