

IMMEDIATE ACTION LETTER

JUN 30 1981

Docket No. 70-008

Battelle Columbus Laboratories
ATTN: Dr. E. W. Uffler, Director
515 King Ave.
Columbus, OH 43201

Gentlemen:

This refers to the telephone conversations of June 24, 1981, in which Dr. W. D. Madia and Mr. H. L. Toy of your staff and Mr. C. G. Peck of this office discussed the problem of removable contamination on the surface of the NAC-ID cask.

It is our understanding that you will not release the cask from your facility until measures have been taken, acceptable to representatives of this office, that will ensure that contamination levels during transport do not exceed the DOT limit.

If you believe our understanding of this matter to be incorrect, please contact this office immediately.

Sincerely,

James G. Kappler
Director
