Dear Mr. Parker:

SUBJECT: VITAL AREA ANALYSIS VISIT

This is to confirm that two individuals, under contract to NRC, from the Los Alamos National Laboratory will arrive at McGuire Nuclear Station on June 8, 1981, to perform an engineering analysis for the purpose of identifying vital equipment at the site. This analysis will be accomplished during the period of June 8-12, 1981, and will require that the NRC contractors have access to both plant information and areas. Additionally, the assistance of one person highly knowledgeable of site layout and construction will be required for the entire period. The attachment provides the names and identifying information of the NRC contractors.

Information you consider to be proprietary which will be required by these contractor personnel during the visit will be afforded protection from disclosure in accordance with standard NRC procedures.

Sincerely,

Elinor G. Adensam, Acting Chief
Licensing Branch 4
Division of Licensing
