Dear Mr. Gary:

Subject: Station Visit to Comanche Peak Steam Electric Station by NRC

This letter is in response to your staff's request for written conformation of the schedule and purpose of the vital area analysis conducted at the Comanche Peak Steam Electric Station.

The engineering analysis conducted by two individuals of the Los Alamos National Laboratory, under contract to the NRC, during the period of May 18-22, 1981 is part of the overall physical protection program applied at all power reactors.
