Materials Radiation Protection
Section 1, Region III
Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, Illinois 60137

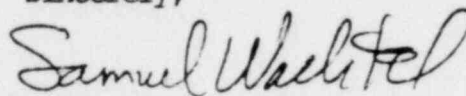

Dear Mr. Wiedeman:

This letter is in response to the results of your routine safety inspection conducted at Silver Cross on April 28, 1981, covering NRC Byproduct Material Licenses No. 12-01127-01 and No. 12-01127-02.

On May 29, 1981, via Purilator Transport Service, the Strontium 90 Ophthalmic applicator was returned to Amersham, 2636 South Clearbrook, Arlington Heights, Illinois 60005, for disposition. The above source was on our License No. 12-01127-02 at the time of purchase in 1970 and in some manner omitted during a period of license renewal process.

This action should place Silver Cross in complete compliance with your agency. If you have any questions regarding this, please do not hesitate to contact me.

Sincerely,

Samuel Wachtel
Assistant Administrator
