Joseph Hendrie, Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Chairman Hendrie:

I oppose the following rule changes proposed by NRC:

1. Denying interveners discovery against the NRC;
2. Eliminating or reducing the 90 day time delay now required between completion of construction and licensing;
3. granting a fuel loading, low power testing license.

I am much concerned with the safety of the power plants at Diablo Canyon and San Onofre. Please help keep Californians healthy and free of accidental power leaks and radiation.
