June 6, 1981

James Henry  
Department of Standards  
Nuclear Regulatory Commission  
Washington, D.C.

-20 (357)

(45 FR 67018)

Dear Mr. Henry:

We are writing in response to the regulations passed on October 3, 1980, which would allow more lenient disposal of low-level radioactive materials.

Our organization is firmly committed to the protection and preservation of our environment, and is disturbed by the trend to make risky disposal for expediency.

We urgently request that you reconsider your passage of these regulations. Please do not experiment with our environment or human lives.

Sincerely yours,

*Janice M. Hill*
