

JUN 30 1981

Docket No. 50-254  
Docket No. 50-265

Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Vice President  
Post Office Box 767  
Chicago, IL 60690

Gentlemen:

This refers to the routine safeguards inspection conducted by Messrs. T. J. Madeda and J. R. Kniceley of this office on June 1-5, 1981, of activities at Quad Cities Nuclear Power Station, Units 1 and 2, authorized by NRC Operating Licenses No. DPR-29 and No. DPR-30 and to the discussion of our findings with Mr. N. Kalivianakis and other members of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

Areas examined during this inspection concern a subject matter which is exempt from disclosure according to Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Consequently, the enclosure to this letter and our report of this inspection will not be placed in the Public Document Room.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as described in the enclosed Appendix A. The inspection showed that action had been taken to correct the identified noncompliance and to prevent recurrence. Consequently, no reply to this noncompliance is required and we have no further questions regarding this matter at this time.
