1. Condition No. 17 of your license requires that licensed material be possessed and used in accordance with the statements, representations, and procedures contained in the referenced application and letter.

The application dated March 26, 1979, states in Item 7 that Appendix B of Regulatory Guide 10.8 will be followed concerning the Medical Isotope Committee. Appendix B requires the Committee to meet no less than once in each calendar quarter.

Contrary to the above, licensee statements and a review of records indicated the Medical Isotope Committee did not meet from December 8, 1980, to the day of the inspection.

This is a Severity Level V violation (Supplement VII).

2. Condition No. 17 of your license requires that licensed material be possessed and used in accordance with the statements, representations, and procedures contained in the referenced application and letter.

The application dated March 26, 1979, states in Item 17 that the procedure for area surveying contained in Appendix I of Regulatory Guide 10.8 will be followed. Appendix I requires that all laboratory and waste storage areas be surveyed with a G-M survey meter and a wipe test once a week.

Contrary to the above, a review of records and licensee statements indicated weekly surveys had not been conducted from May 12, 1981, to June 19, 1981.

This is a Severity Level V violation (Supplement VII).
