Dear Mr. Barber:

SUBJECT: POTENTIALLY DEFECTIVE REFURBISHED ELECTRICAL EQUIPMENT

In our continuing investigation to identify the circumstances under which defective refurbished electrical equipment may have been supplied to nuclear power plants, we have discovered additional invoices that specify your agency as the customer. Copies of these invoices are attached for your information and use. These documents result from our review of a selection of records spanning the last three or four years from companies supplying molded case circuit breakers listed in NRC Information Notice 88-46, a copy of which is enclosed for your information. As other records come to light, we will provide copies to your office as appropriate.

If there is any additional information you require, please call me or Mr. Walter Haass at (301) 492-3219.

Sincerely,

Original signed by  
Brian K. Grimes
