Docket No. 50-382

MEMORANDUM FOR: Frederick J. Hebdon, Director  
 Project Directorate IV  
 Division of Reactor Projects - III,  
 IV, V and Special Projects

FROM: David L. Wigginton, Project Manager  
 Project Directorate IV  
 Division of Reactor Projects - III,  
 IV, V and Special Projects

SUBJECT: LOUISIANA POWER AND LIGHT COMPANY (LP&L)  
 CONFIRMATION OF ITS RESPONSE TO NRC  
 BULLETIN 88-10 AND SUPPLEMENT 1 TO  
 BULLETIN 88-10 (TAC NO. 71372)

By letters dated April 3 and July 31, 1989, LP&L responded to Bulletin 88-10. As a result of Supplement 1 to Bulletin 88-10, corrections to their April 3, 1989 submittal were required and were forwarded by letter dated July 31, 1989. In its responses, the licensee confirmed that activities required to address the issue of substandard molded case circuit breakers discussed in Bulletin 88-10 will be performed on an acceptable schedule. A detailed technical review of the licensee's responses has not been performed; however, the area may be subject to inspection at a later date. If a subsequent inspection identifies deficiencies in the licensee's actions and responses, this issue will be reopened. Presently we consider this action complete.

By copy of this memorandum, Region IV is advised of the licensee's position on this matter.
