

APR 28 1988

Mr. Robert M. Quillin  
Health Physics Administrator  
Radiological Health  
Ohio Department of Health  
1224 Kinnear Road  
Columbus, Ohio 43212

Dear Mr. Quillin:

Enclosed are copies of the following documents that I promised during our visit last week to a number of Ohio sites undergoing decontamination and decommissioning:

1. The most recent licensing action on Chemetron dated October 1, 1987. (We are continuing consideration of appropriate NRC legal action regarding the Chapter 11 Bankruptcy filed by Allegheny International, Inc., which includes its subsidiary, Chemetron.)
2. The ORAU survey of Vistron issued in August 1983.
3. Volume I of the decontamination report on the Vistron catalytic building filed by Nuclear Energy Services, consultant to BP Chemical Corp.

If there is other information that I can provide, please let me know. As I indicated, I will continue to keep you apprised of the ongoing efforts regarding these sites, as well as the Shieldalloy site, including copies of any correspondence.

The visit to the sites was very useful to me, and I appreciated the opportunity to meet you. I since have learned that you are an old acquaintance of Vandy L. Miller, and he sends his regards.

Sincerely,

*Original Signed By:*

Leland C. Rouse, Chief  
Fuel Cycle Safety Branch  
Division of Industrial and  
Medical Nuclear Safety, NMSS
