Gentlemen:

This refers to the routine safety inspection conducted by Messrs. W. T. King, D. R. Gibbons, and Ken Lambert of this office on November 6, 1989 of activities authorized by NRC Byproduct Material License No. 34-25850-01 and to the discussion of our findings with you and Mr. C. D. Moore at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspectors examined actions described in your letter dated May 23, 1988 regarding apparent violations found during our April 22, 1988 inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as described in the enclosed Notice. With respect to Item 3.0 the inspection showed that actions had been taken to correct the identified violation and to prevent recurrence. Consequently, no reply to the violation is required and we have no further questions regarding this matter at this time. Regarding the remaining items a written response is required.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

D. J. Sreniawski, Chief
Nuclear Materials Safety
