Gentlemen:

Subject: REQUALIFICATION REMEDIATION EXAMINATIONS REPORT NO. 50-354/89-21(OL)

During the week of December 4, 1989, the NRC administered requalification re-examinations to licensed operators of Hope Creek Generating Station, who had failed sections of requalification exams given during the week of June 19, 1989. Examinations were administered in accordance with Revision 5 to NUREG-1021, "Operator Licensing Examiner Standards," specifically, ES-601, "Administration of NRC Requalification Program Evaluations."

At the conclusion of the examinations, findings relating to the preparation and administration of the exams were discussed with members of your staff identified in the enclosed report.

The results of the re-examination are that two of two senior reactor operators passed their respective areas of the requalification re-examinations.

In accordance with 10 CFR 2.790 of the Commission regulations, a copy of this letter and the enclosure will be placed in the NRC Public Docket Room.

Should you have any questions regarding this report, please contact Mr. Richard Conte at (215) 321-5210.

Sincerely,

**Original Signed By:**
