Gentlemen:

This refers to the routine safety inspection conducted by Messrs. B. H. Little and C. H. Brown of this office from October 16 through November 30, 1989, of activities at Callaway Plant, Unit 1, authorized by NRC Operating License NPF-30, and to the discussion of our findings with Mr. J. D. Blosser and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements as identified in the enclosed copy of our inspection report. The inspection showed that the violations met the test of 10 CFR 2, Appendix C, Section V.G.1; accordingly no Notice of Violation was issued. No reply to the violation is required, and we have no further questions regarding this matter at this time.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.
