DOCKETING & SERVICE
BRANCH

Secretary
U.S. Nuclear Regulatory Commission
ATT: Docketing and Service Branch
Washington, DC 20555

SUBJECT: Proposed Changes to 10CRF Part 170, RIN 3150-AD23

Dear Sir:

The proposed working of revised 170.11 (a)(4) is difficult to comprehend.

I believe part III (Section-by-Section Analysis) of the Federal Register publication contains much clearer wording.

A possible interpretation of the proposed change is that sponsored research at a university research reactor would result in a loss of exemption from licensing fees. Further, it also appears possible to interpret that any radiation treatment fees at a research reactor would result in loss of exemption.

Very truly yours,

R. J. Cashwell
Reactor Director
