Gentlemen:

Haddam Neck Plant
Millstone Nuclear Power Station, Unit Nos. 1, 2, and 3
Distribution Lists for Correspondence From the NRC

The purpose of this letter is to request several revisions to the distribution of correspondence originating from the Regional Office. The most important change we are proposing for Region I correspondence is that the appropriate unit superintendent would be added to each list. The primary addressee for all correspondence will continue to be E. J. Mroczka. The attachments show the recommended distribution for only our personnel (one list for each unit). Additional distribution would be at the discretion of the NRC. No changes are recommended for the correspondence from NRR.

We would also appreciate any improvements that Region I and NRR can implement to provide copies of correspondence which require a response within a fixed number of days from the date of a letter. For example, a Notice of Violation requiring a 30-day response from the date of the letter may not be received by us through normal mail channels for a week or longer. Losing one or more weeks of a 30-day response interval due to mailing delays creates an additional burden that we wish to minimize to the extent practical. Selective use of express mail or a telecopier would be much appreciated where short response deadlines are critical.

Thank you for considering our request that all future letters to Connecticut Yankee Atomic Power Company and Northeast Nuclear Energy Company should reflect the attached revisions, and to expedite letters requiring a short-term response.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
CONNECTICUT YANKEE ATOMIC POWER COMPANY
