

JAN 02 1990

Jill E. Lytle, Acting Associate Director  
Office of Waste Operations  
Office of Environmental Restoration  
and Waste Management  
Mail Stop 7A049  
United States Department of Energy  
1000 Independence Avenue, S.W.  
Washington, D.C. 20545

Dear Mrs. Lytle:

In accordance with the Department of Energy's January 23, 1989, "Notice of DOE Policies and Procedures Regarding the January 1, 1990 Milestone", the Nuclear Regulatory Commission (NRC) hereby verifies receipt of the enclosed certifications submitted by the Central Interstate Low-Level Radioactive Waste Compact Commission representing the states of Arkansas, Kansas, Louisiana, Nebraska and Oklahoma to meet Section 5(e)(1)(C)(ii) of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Act). These certifications were signed by Governors Bill Clinton, Mike Hayden, Buddy Roemer, Kay Orr and Henry Bellmon, respectively, and certify that each of these States "will be capable of providing for the storage, disposal or management of any low-level radioactive waste generated within its borders as required by Section 5(e)(1)(C)(ii), of the Act." These certifications were officially provided to NRC on December 21, 1989. (A separate certification was received on December 19, 1989, from the State of Kansas. Please refer to the attached December 19, 1989, letter from Raymond Peery. That certification was processed earlier and forwarded to your office.) No later than January 23, 1990, copies of all certifications will be sent to Congress and to the Office of the Federal Register for publication in accordance with Section 5(e)(1)(E) of the Act. At the same time, the sited states officials named in our guidance in the February 22, 1989, Federal Register Notice will be provided with copies of all certifications. NRC has processed the certification in accordance with the summary provided to you in my December 21, 1989, letter.

Sincerely,

(Signed) Robert M. Bernero

Dear Mrs. Lytle:

In accordance with the Department of Energy's January 23, 1989, "Notice of DOE Policies and Procedures Regarding the January 1, 1990 Milestone", the Nuclear Regulatory Commission (NRC) hereby verifies receipt of the enclosed certification submitted by the State of Rhode Island to meet Section 5(e)(1)(C)(ii) of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Act). This certification was signed by Governor Edward D. DiPrete and certifies that the State of Rhode Island will be capable of providing for and will provide for storage, disposal, or management of any low-level radioactive waste generated within the State and requiring disposal after December 31, 1992. This certification was officially provided to NRC on December 27, 1989. No later than January 23, 1990, copies of all certifications will be sent to Congress and to the Office of the Federal Register for publication in accordance with Section 5(e)(1)(E) of the Act. At the same time, the sited states officials named in our guidance in the February 22, 1989, Federal Register Notice will be provided with copies of all certifications. NRC has processed the certification in accordance with the summary provided to you in my December 21, 1989, letter.

This certification was signed by Governor Gaston Caperton, and certifies that the State of West Virginia will be capable of providing for and will provide for storage, disposal, or management of any low-level radioactive waste generated within the State and requiring disposal after December 31, 1992. This certification was officially provided to NRC on December 21, 1989 and an enclosure on December 27, 1989. No later than January 23, 1990, copies of all certifications will be sent to Congress and to the Office of the Federal Register for publication in accordance with Section 5(e)(1)(E) of the Act. At the same time, the sited states officials named in our guidance in the February 22, 1989, Federal Register Notice will be provided with copies of all certifications. NRC has processed the certification in accordance with the summary provided to you in my December 21, 1989, letter.

Sincerely,

Robert M. Bernero, Director

Dear Mrs. Lytle:

In accordance with the Department of Energy's January 23, 1989, "Notice of DOE Policies and Procedures Regarding the January 1, 1990 Milestone", the Nuclear Regulatory Commission (NRC) hereby verifies receipt of the enclosed certification submitted by the Commonwealth of Pennsylvania to meet Section 5(e)(1)(C)(ii) of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Act). This certification was signed by Governor Robert P. Casey, and certifies that the Commonwealth of Pennsylvania is capable of providing for, and commits to providing for, management of all low-level radioactive waste generated within the Commonwealth and requiring disposal after December 31, 1992. This certification was officially provided to NRC on December 27, 1989. No later than January 23, 1990, copies of all certifications will be sent to Congress and to the Office of the Federal Register for publication in accordance with Section 5(e)(1)(E) of the Act. At the same time, the sited states officials named in our guidance in the February 22, 1989, Federal Register Notice will be provided with copies of all certifications. NRC has processed the certification in accordance with the summary provided to you in my December 21, 1989, letter.

Sincerely,  
(Signed) Robert M. Bernero

Dear Ms. Lytle:

In accordance with the DOE's January 23, 1989 "Notice of DOE Policies and Procedures Regarding the January 1, 1990 Milestone, the U.S. Nuclear Regulatory Commission (NRC) hereby verifies receipt of the enclosed certification submitted by the State of Kansas to meet Section 5(e)(1)(C)(ii) of the Low-Level Radioactive Waste Policy Amendments Act of 1985. This certification was signed by Governor John Hayden, and certifies that the State of Kansas will be capable of providing for and will provide for storage, disposal, or management of any low-level radioactive waste generated within the State and requiring disposal after December 31, 1992. This certification was officially provided to NRC on December 18, 1989. No later than January 23, 1990, copies of all certifications will be sent to Congress and to the Office of the Federal Register (FR) for publication in accordance with Section 5(e)(1)(E) of the Act. At the same time, the sited states officials named in our guidance in the February 22, 1989 FR will be provided with copies of all certifications. NRC has processed the certification in accordance with the summary provided to you in my December 21, 1989 letter.

Sincerely,

Robert M. Bernero, Director  
 Office of Nuclear Material Safety  
 and Safeguards

Dear Mrs. Lytle:

In accordance with the Department of Energy's January 23, 1989, "Notice of DOE Policies and Procedures Regarding the January 1, 1990 Milestone", the Nuclear Regulatory Commission (NRC) hereby verifies receipt of the enclosed certification submitted by the State of Maine to meet Section 5(e)(1)(C)(ii) of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Act). This certification was signed by Governor John R. McKernan Jr., and certifies that the State of Maine will be capable of providing for and will provide for the storage, disposal, or management of any low-level radioactive waste generated in the State following December 31, 1992, and requiring disposal. This certification was officially provided to NRC on December 21, 1989. No later than January 23, 1990, copies of all certifications will be sent to Congress and to the Office of the Federal Register for publication in accordance with Section 5(e)(1)(E) of the Act. At the same time, the sited states officials named in our guidance in the February 22, 1989, Federal Register Notice will be provided with copies of all certifications. NRC has processed the certification in accordance with the summary provided to you in my December 21, 1989, letter.

Sincerely,

(Signed) Robert M. Bernero
