Gentlemen:

This is in reference to your request in a letter dated August 18, 1988, to amend License No. 29-27980-01. The license you have requested to amend cannot be amended. This particular license was issued to physicians originally licensed under a general license provision pursuant to 10 CFR 35.31 (superceded). This provision was deleted in the current Part 35 regulations, which were published October 16, 1986. This license was issued, on a one-time-only basis, to these formerly generally licensed physicians.

You may apply for an amendment to the Kimball Medical Center's license (NRC License No. 29-14017-01) to include Dr. Lawrence P. Parmer as an authorized user of radioactive material included in 10 CFR 35.100. In order to be approved for this authorization, Dr. Parmer need only submit evidence of certification and/or training and experience, as required in 10 CFR 35.910 (enclosed). An alternate approach would be to allow Dr. Parmer to work under the supervision of one of your authorized users of the types of materials specified in 10 CFR 35.100.

If we may be of any further assistance, please contact us.

Sincerely,

Original Signed By:  
John E. Glenn
