Gentlemen:

Pursuant to Title 10, Code of Federal Regulations, Part 40, and in accordance with your letter dated October 26, 1989, Source Material License SUA-1475 is hereby amended to revise the deadline for cleanup of offsite windblown contamination to December 31, 1990 by revising Condition No. 33 to read as follows:

- 33. The licensee shall adhere to the schedule for cleanup of windblown tailings, interim stabilization and mill decommissioning; and adhere to the schedule for placement of the final reclamation cover and construction of flood diversion structures (pending NRC approval of those designs) in accordance to the document entitled, "Amendment 1, Reclamation Plan, License No. SUA-1475," submitted by letter dated July 26, 1988, as modified by submittal dated October 26, 1989.

The licensee shall submit the results of a final gamma survey and soil sampling program to verify cleanup of contaminated areas in accordance with Criterion 6 of Appendix A to 10 CFR 40 within 90 days of completion of cleanup of onsite windblown tailings in 1989 and offsite windblown tailings in 1990.

All other conditions of this license shall remain the same. You will note that we have taken this opportunity to change the USNRC designation in your license to NRC in accordance with agency policies. The license is being reissued to incorporate the revision specified above.
