Docket No. 50-295
Docket No. 50-304

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Senior Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This confirms our plans as discussed between Mr. Tom Joyce of your staff and Mr. Brent Clayton of this office to have a meeting with you and members of your staff at the NRC Regional Office in Glen Ellyn, Illinois, on January 12, 1990, at 1:00 p.m. (CST).

This meeting is an enforcement conference to discuss the recent findings relating to the apparent lack of control of licensed operator qualification requirements. During this meeting you are requested to present to the staff the programmatic controls that were in place when the apparent violations were identified. Include in your discussion those management controls applied at all Commonwealth Edison plants. The presentation should also address line management and Quality Assurance activities that have or should have identified the apparent violations. In addition, discuss the corrective actions you have or should have taken to prevent the occurrence of the apparent violations.

We appreciate your cooperation in this matter, and will gladly discuss any questions you may have concerning this meeting.

Sincerely,

William L. Stoney
for Edward G. Greenman, Director
Division of Reactor Projects
