Dear Sir:

I have enclosed a copy of a letter which I received from Michael Monetas of McKinleyville, California regarding his concerns with exposure to low level nuclear waste. I would appreciate it very much if you would bring this letter to the attention of the appropriate individuals within your agency for consideration and respond to me at your earliest convenience.

Please return with your reply the correspondence which I have enclosed referring to case 9264060020.

Thank you very much for your assistance in this matter.

Sincerely,

PETE WILSON

U.S. Senate
Washington, DC 20510

Dear Senator Wilson:

I originally sent you a letter dealing with my concerns about low-level waste, specifically the Below Regulatory Concern issue which the Nuclear Regulatory Commission is trying to change.

You apparently did not read my letter very carefully, or perhaps did not understand my concerns, since your reply of July 18, 1989 dealt with the high-level waste issue.

Please re-read my letter which I am sure you still have on file, and respond to the specific concerns which I have raised.

Sincerely,

Michael J. Manetas
