UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555

December 27, 1989

The Honorable William S. Sessions  
Director  
Federal Bureau of Investigation  
Washington, D.C. 20535

Dear Mr. ~~Sessions~~ *Bill*:

Recently, several representatives of the Federal Bureau of Investigation (FBI) participated as guest speakers at a security training symposium that the U.S. Nuclear Regulatory Commission (NRC) sponsored.

The theme of the symposium was the recognition and detection of firearms and explosives. Your personnel helped make the symposium highly successful. Messrs. Robert C. Quigley, Rick Redman, and Wallace Higgins of the Bomb Data Center and Dr. Dean Fetterolf of the FBI Laboratory presented briefings which, cumulatively, formed a cornerstone of a large part of the symposium.

These individuals exhibited expertise and professionalism of the highest degree, typifying the standards set by the Bureau. On behalf of the NRC, I wish to commend them for their efforts.

Sincerely,

*Kenneth M. Carr*
