Nuclear Regulatory Commission
Region 1, Section A
Nuclear Materials
475 Allendale Road
King of Prussia, PA 19406

SUBJECT: Amendment of License #37-10509-01

We are requesting temporary transfer of our RIA testing laboratory space to Building #11, rooms 117, 119, and 120 for a period starting June 1, 1989. This temporary move is necessitated by asbestos removal and sprinkler construction.

The scanning rooms will have been mothballed temporarily and we will not receive generators or materials related to scanning during this period.

All licensed material will be monitored and then transferred to an area designated in Bldg. 11 (i.e., sealed sources, calibrators). Generators will be returned to Mallinckrodt, St. Louis.

Wipe tests, instrument quality control, personnel monitoring, receipt and disposal of RIA materials will remain the same.

Packages will be received in Bldg. 11. All packages will be monitored for damage.

All rules and regulations regarding safe use of radioactive material, emergency procedures, area surveys, waste disposal, and decontamination will be maintained for RIA procedures.

If there are any questions, please contact Robert L. Bell, M.D., Chief, Nuclear Medicine Service at FTS 489-7291.

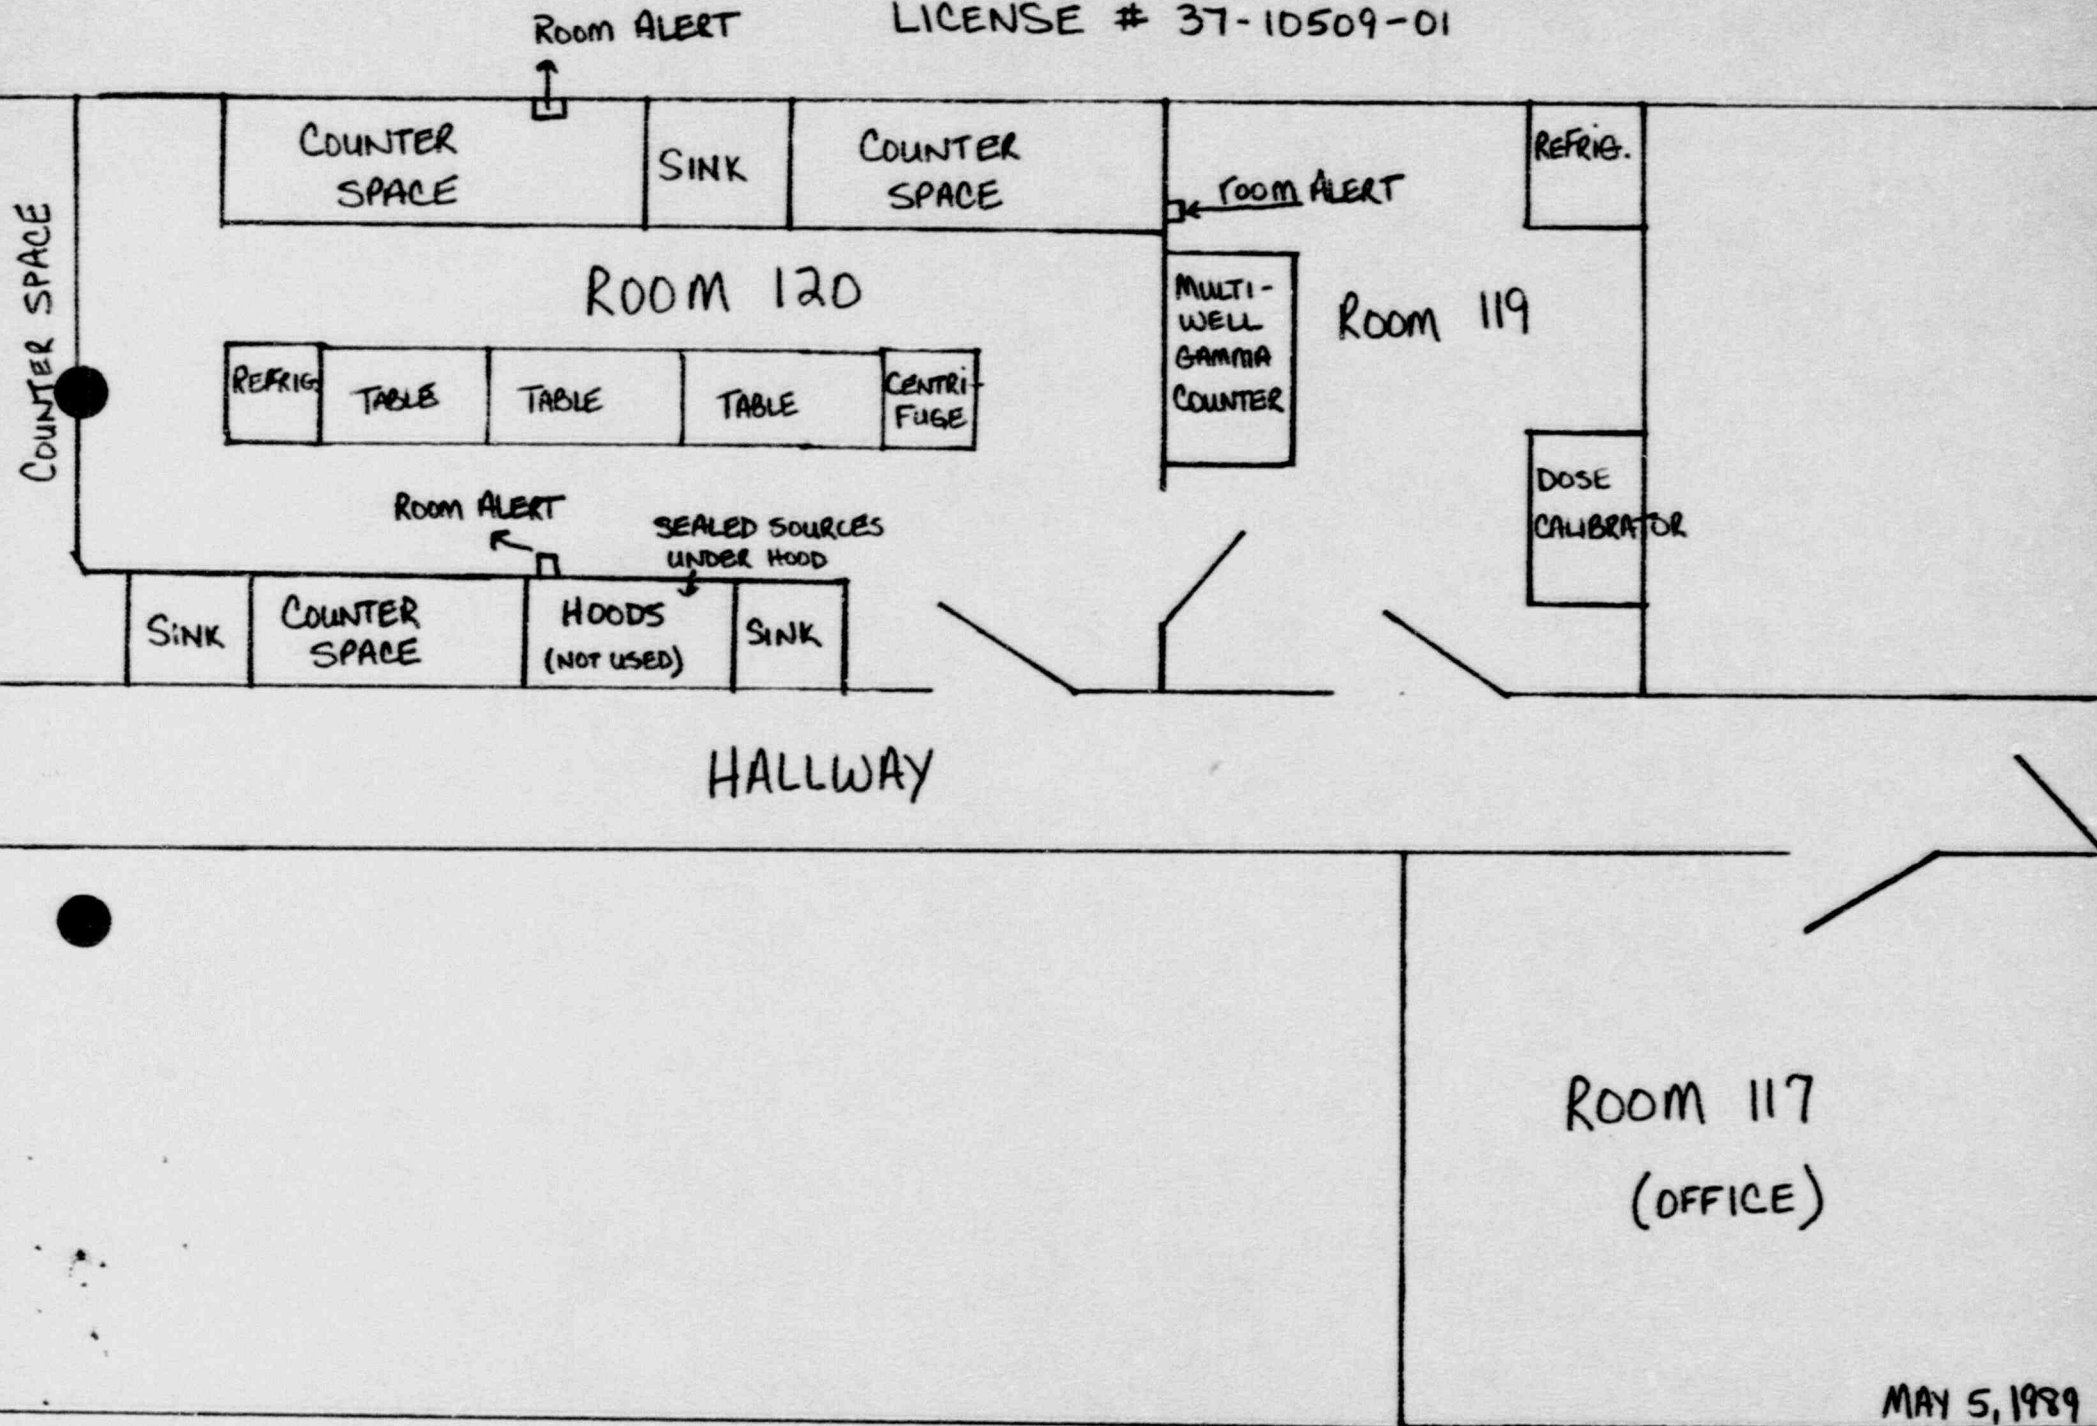

A handwritten signature in cursive script, appearing to read 'R. C. Meiler'.
