

January 4, 1990

Docket No. 50-255
Docket No. 50-346

P.A.F.A. International, Inc.
ATTN: Mr. Allen E. Wehrmeister
Director of Engineering
7545 Central Industrial Drive
Riviera Beach, FL 33404

Dear Mr. Wehrmeister:

We have reviewed your December 19, 1989 request and affidavit to withhold from public disclosure certain information contained in Attachment 3 to NRC Inspection Reports 50-255/89026(DRS) and 50-346/89021(DRS) dated December 8, 1989. With the exception of the reference in two places to H.A.F.A. Report No. 1009-88 on pages 18 and 25 of the attachment, we agree that the information identified in your request appears to be confidential commercial information within the meaning of 10 CFR 2.790(a)(4).

I discussed the references to H.A.F.A. Report No. 1009-88 with your attorney in this matter, Mr. Jay Silberg, on December 21, 1989 and it was agreed that references to this report need not be deleted since merely identifying the report discloses no confidential information. Accordingly, copies of the redacted pages have been sent to recipients of the above-mentioned inspection reports with appropriate instructions. NRC will maintain the proprietary version of the report in its files but the publicly available version will be the redacted report.

Sincerely,

Original signed by
Bruce A. Berson
