SUBJECT: Virgil C. Summer Nuclear Station  
Application for Approval to  
Incinerate Contaminated Oil

Gentlemen:

In accordance with the requirements of 10CFR20.305 and 10CFR20.302(a), South Carolina Electric & Gas Company (SCE&G) requests approval to incinerate oil contaminated with very low levels of licensed radioactive materials. The proposed incinerator is to be located within the Site Area Boundary of the Virgil C. Summer Nuclear Station (VCSNS) and will be dedicated to the disposal of slightly contaminated oil from sources such as the reactor coolant pump.

Attached for your review are copies of the application and the Offsite Dose Calculation Manual (ODCM). Should you need any additional information to process this application, please contact Mr. Charles McKinney of my staff at (803) 345-4723.

Very truly yours,

  
O. S. Bradham
