Illinois Power Company
ATTN: J. S. Perry
Vice President
Clinton Power Station
Mail Code V-275
P. O. Box 678
Clinton, IL 61727

Gentlemen:

This confirms our plans as discussed between Mr. J. Weaver of your staff and Mr. B. Drouin of this office to have a meeting with you and members of your staff at the Clinton Visitors Center, on January 26, 1990, at 10:00 a.m. (CST). The purpose of the meeting is to present the Initial SALP 9 Report for the Clinton Power Station.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Illinois Power Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Clinton Power Station.

Sincerely,

Edward G. Greenman, Director
Division of Reactor Projects
