Ref. Amendment 18 to SNM-368

Subject: Docket 70-371, SNM License #368 Amendment Request

Dear Sir,

UNC requests that the subject license be amended to authorize two (2) 350 gm. U-235 limits in L building, outside of the Vault room which is authorized by the referenced amendment, and three (3) 350 gm. U-235 limits in the L building Laboratory area.

In support of this request, we enclose revised specifications and support pages for insertion into the license. We are submitting an updated environmental evaluation under separate unclassified cover.

To assure compliance with process development schedules critical to government contracts and future activation of L-Building for production fuel processing operations, UNC requests approval of this submittal not later than March 15, 1990.

Very Truly Yours
