Gentlemen:

This is in reference to your January 4, 1988 letter requesting termination of License No. 29-13915-04E. We cannot issue a termination amendment because the license is now expired. However, we have retired the license and consider it to be terminated.

Please note that 10 CFR 32.20(c)(3) (copy enclosed) requires that a product transfer report be submitted when you request termination of a license. In reviewing our records, we find that the last transfer report covered the period ending in 1981. Thus, you should submit product transfer information from 1981 to the present. This information must be submitted within sixty (60) days of the date of this letter. When providing this information, please refer to this letter and to Control No. 108263. If we do not receive the requested information, we will refer the matter to the Nuclear Regulatory Commission's Region I office for appropriate enforcement action.

If you have any questions, please contact me at (301) 492-0615.

Sincerely,

Patricia C. Vacca
