Dear Dr. Glenn,

Please amend our NRC byproduct material license 07-17792-01 to include a nuclear medicine department change of location. Enclosed is our new floor plan layout. We have our acceptable calculations, checked by our consultant radiation physicist, Walter L. Robinson, M.S., to support the use of Xe-133 in our new suite on file in our "ALARA Binder". Our rooms are kept under negative pressure differential, and we will follow the Model Programs of Appendix O as follows: 10.13.1, (0.1), (0.2), (0.3), 10.13.3, 10.13.4, and (0.4).

We will also perform a close-out survey and wipe test of our old facility prior to relinquishing it to alternative use.

If you have any questions concerning this amendment, please contact our consultant radiation physicist at (717) 291-9813.

Sincerely,

Norman Boyer, M.D.
R.S.O.
