Mr. G. C. Creel
Vice President - Nuclear Energy
Baltimore Gas and Electric Company
Calvert Cliffs Nuclear Power Plant
MD Rtes. 2 & 4
P. O. Box 1535
Lusby, Maryland 20657

Dear Mr. Creel:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION - SECOND TEN-YEAR INSERVICE
TEST PROGRAM PLANT (UNIT 1 TAC 64976; UNIT 2 TAC 64977)

The NRC staff has completed its initial review of your revised inservice test (IST) program plan for safety-related pumps and valves as provided in your letter of October 18, 1988. We have determined that additional information is needed to support the following two ASME Code relief requests: pump relief request number 6 and valve relief request number SI-4.

The need for this additional information was discussed with your staff on a conference telephone call on January 5, 1990. During this call, your staff agreed to provide the information requested in the enclosed request for additional information by February 16, 1990.

This letter confirms our request that you please provide the requested information by February 16, 1990.

This request for information affects fewer than 10 respondents; therefore, OMB clearance is not required under Public Law 96-511.

Sincerely,

Scott Alexander McNeil, Project Manager
Project Directorate I-1
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
