ATTN: Mr. Horace Panther  
Radiation Safety Officer  
P.O. Box 508  
Bay Springs, MS 39422

Gentlemen:

This is in reference to Mr. McRee's August 27, 1987 letter and your June 17, 1988 letter requesting termination of License No. 23-17569-02E. We cannot issue a termination amendment because the license is now expired. However, we have retired the license and consider it to be terminated.

Please note that 10 CFR 32.16(c)(3) (copy enclosed) requires that a product transfer report be submitted when you request termination of a license. In reviewing our records, we find that you have not submitted any transfer reports. Thus, you should submit product transfer information from inception of the license (October 1983) to the present. This information must be submitted within sixty (60) days of the date of this letter. When providing this information, please refer to this letter and to Control No. 020305. If we do not receive the requested information, we will refer the matter to the Nuclear Regulatory Commission's Region II office for appropriate enforcement action.

If you have any questions, please contact me at (301) 492-0615.

Sincerely,

Patricia C. Vacca  
Medical, Academic, and Commercial  
Use Safety Branch  
Division of Industrial and  
Medical Nuclear Safety
