Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-348/89-22, 50-364/89-22

Thank you for your response of December 7, 1989, to our Notice of Violation issued on November 9, 1989, concerning activities conducted at your Farley facility. We have evaluated your response and find that it meets the requirements of 10 CFR 2.201. We will examine the effectiveness of your corrective actions to avoid similar violations during future inspections.

The identified corrective action appears appropriate to ensure proper management approval for deviation from the Technical Specification limits, however, the check of time sheets on a pay period basis may not detect deviations from the requirements to limit overtime during any seven day period.

We appreciate your cooperation in this matter.

Sincerely,

Luis A. Reyes, Director  
Division of Reactor Projects
