Vice President and Director  
Oyster Creek Nuclear Generating Station  
P. O. Box 388  
Forked River, New Jersey 08731

Gentlemen:

Subject: Examination Report No. 50-219/89-24(OL)

During the weeks of October 9 and 16, 1989, the NRC administered examinations to employees of your company who had applied for licenses to operate the Oyster Creek facility. At the conclusion of the examinations, the written examination questions and preliminary findings were discussed with those members of your staff identified in the enclosed report.

Your attention is directed to Section 4 of the report concerning the adequacy of your licensed operator training program. Specifically, we would like to discuss with you: (1) the deficiencies noted in your processing of the license applications (NRC Form 398), and (2) the upgrading of your training program to latest NRC standards which form the basis of 10 CFR 55. You will be contacted to discuss these issues in a management meeting at the Region I office in King of Prussia, Pennsylvania. Your perspective on these issues and any related planned improvements should also be discussed.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions regarding this examination, please contact Richard Conte at 215-337-5210.

Sincerely,

*Original signed by*
