

JAN 16 1990

Mr. J. R. Sasso
Chairman, Power Division
American Nuclear Society
ORDIS, Incorporated
Suite 206
6472 Camden Avenue
San Jose, California 95120

Dear Mr. Sasso:

Thank you for your letter of November 22, 1989 inviting NRC to participate in the American Nuclear Society, Power Division, workshop on Materials Management and Spare Parts Issues to be held in Nashville, Tennessee on June 10-14, 1990. As I discussed, with Mr. Fred Reeves, I will plan to participate in a workshop panel discussion on Future Regulatory Actions and Mr. Bill Brach, Chief, Vendor Inspection Branch will provide a briefing on misrepresentation of vendor products. Mr. Brach will prepare a brief paper for publication in the workshop transactions. The title of Mr. Brach's paper will be "Fraudulent Parts-Buyer Beware." The paper will discuss NRC inspection and review of vendors' misrepresentation of equipment and materials supplied to nuclear power plants.

I believe the topic and focus of the workshop are very timely, and I look forward to the meeting.

Sincerely,
