MEMORANDUM FOR: Chester White, Director  
Office of Investigations  
Region I

FROM: E. William Brach, Chief  
Vendor Inspection Branch  
Division of Reactor Inspection and Safeguards  
Office of Nuclear Reactor Regulation

SUBJECT: TELEMECANIQUE, INC.

Enclosed is the completed Vendor Inspection Branch inspection report for Telemecanique, Inc. This report is forwarded for your information and use in support of ongoing OI investigations and reviews. The enclosed report is marked "Limited Distribution." We will withhold the report from public disclosure and licensee/vendor distribution pending your approval that public release will not impair your investigatory activities. Specific order information may be released to utilities directly or through generic communications due to the potential safety significance of use of substandard parts.

If you have any questions on the enclosed report, please contact me or Jeffery B. Jacobson.
