Dear Mr. Matthews:

The NRC staff has completed the acceptance review of the final Remedial Action Plan and Final Design for Stabilization of the Inactive Uranium Mill Tailings at Green River, Utah (RAP). Based on our review, the staff concluded that the Green River RAP contains sufficient information to begin our evaluation of the final design.

If you have any questions regarding the information in this letter please contact me at FTS 492-3345, or the project manager, Sandra Wastler, at FTS 492-0582.

Sincerely,
