Mr. Ramon Hall
Licensing Branch 1
Uranium Recovery Field Office
Nuclear Regulatory Commission, Region IV
P.O. Box 25325
Denver, CO 80225

Dear Mr. Hall:

Enclosed for your information is PID No. 03-S-24 for the Durango UMTRA Project. This PID addresses the change in seedbed preparation.

If you have any questions, please call Elizabeth Damler of my staff at (505) 845-5654.

Sincerely,

Mark L. Matthews
Acting Project Manager
Uranium Mill Tailings Project Office

| Originator and Location M. Wesely, San Francisco | Phone (415) 442-7517 | Organization MKES | Answer By: | References: Subcontract: Subcontract No: |
| Subject Change in Seedbed Preparation, Specification Section 02935, Seeding | | | | |

Description of Problem and Recommended Solution Clarification Change

Problem: In Specification Section 02935, Seeding, Subsection 3.2.B the requirement that 8 inches of surface soil be in a loose condition prior to seeding is in conflict with the compaction requirements for subgrade and fill given in Section 02200, Earthwork, and the specified depth of backfill (6 inches) in various regions of the site.

Solution: Revise Specification Section 02935, Seeding, Subsection 3.2.B as follows: In the last sentence change 8 inches to 6 inches.
